TAKUMI AUTO PARTS CO., LTD

PREFACE

A word about this catalogue. We have tried to make this catalogue as comprehensive and factual as possible. However, since the time of printing some of the information you'll find here may have been updated. Also, some of the equipment shown or described through this catalogue may have been changed. Further, TAKUMI, reserves the right to make changes at any time without notice.

This catalogue is intended to provide the basic information of TAKUMI mechanical seals. It is designed to aid individual who is studying on his or her own. There are so many types of engines in use today, it is reasonable to expect that differences exist in engine components and systems. To avoid undue repetition, the practice of using representative systems and units is carried out throughout this catalogue. Subject matter treatment is from a generalized point of view and should be supplemented by reference to manufacturer's manuals or other textbooks if more detail is desired. This catalogue is not intended to replace, substitute for, or supersede official regulations or the manufacturer's instructions. TAKUMI will not be responsible for any sub-sequences caused by misuse of this catalogue.

No TAKUMI Dealer or other person is authorized or permitted to give or make any statement, assertion or undertaking in relation to the quality, performance characteristics, descriptions or fitness for any purpose of any TAKUMI product which is at variance with any written statement, assertion or undertaking on any of these subjects given or made by TAKUMI in its published sales literature, and TAKUMI does not accept any liability for any such unauthorized action.

TAKUMI has authorized Dealers in many parts for the sale of service parts and the provision of service to owners of TAKUMI's products. Every endeavour is made to ensure that such Dealers carry adequate stocks of service parts, but TAKUMI doesn't make any promise other than that contained in the New Vehicle Warranty given by TAKUMI that such parts or service facilities will be available at any specific location or at any particular time.

COMPANY INTRODUCTION

(1)TAKUMI Symbol of Quality & Spirit of Master
With 60 years experience in automotive industry, TAKUMI Japan has extended its business from traditional auto parts to new energy section. For many years TAKUMI Japan has been putting quality and performance in high priority and keeping a small group of prestigious clients. However, many customers keep on asking for agency to distribute TAKUMI Japan products. Only recent years, TAKUMI Japan is considering to satisfy customer requirements by granting agency to those qualified applicants.

In order to help customers to be competitive in the market, TAKUMI Japan not only stick to high quality and performance, but also take actions to lower manufacturing cost and operational cost. The target is to cooperate with partners from all over the world to establish global sales network to satisfy customers and end users.

(2)TAKUMI Japan was originally specialized in the design, manufacture and marketing of engine ignition system parts and filtration system parts, later extended its product lines to hybrid batteries, auto cooling system parts, braking system parts, fuel injectors and sensors. Taking advantage of the leading technologies, products from TAKUMI Japan has been obtaining good reputation and gaining customers' satisfaction.

TAKUMI Japan has professional team for international markets and been regularly participating major international exhibitions to help customers to be famous in local markets.

Thanks for worldwide customers, TAKUMI Japan will continue to develop more high quality products to meet customers satisfaction.
